## Seed Bank--Autumn 2004

Welcome to the latest offering from the ABA Seed Bank.

There has been a big influx of seed since our last list, which only came out a few weeks ago, and this offering is so that members can sow the Winter growing material right away. Sowing times are indicated on the seed list. I hope you have good germination.

If you don't have a copy of our seed and bulb policy, which is all about the way we grow and distribute seed from the Seed Bank, then please let me know and I will get one out to you.

**Prices and postage:** Seed packets are available to ABA Members for \$1.00 per packet. Non-Members are able to purchase seed for \$3.50 per packet.

Postage is \$2.00 for all seed orders (International Order please add \$5.00 for postage).

**Payment Options:** To pay for your seed order you can send a cheque or money order made out to the "Australian Bulb Association". For International cheques (not drawn on an Australian bank) please add \$10.00 to cover bank fees. Or you can pay online with your credit card through our secure server Paymate. For detail about using Paymate see the seed order form or you can go online to our web site [www.ausbulbs.org](http://www.ausbulbs.org) for more information.

Happy Gardening!  
Dirk Wallace – ABA Seed Bank Director
